FOR TEACHERS, FAMILIES & SCHOOL LEADERS

Student Safety & Privacy

Student data is never used to train AI models.

Not by Snorkl, and not by the AI companies we work with.
Your school or district owns all student data, not Snorkl.

What Snorkl doesn't do

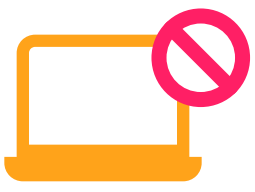

- ✕ Use student data to train or fine-tune AI models
- ✕ Let our AI providers store student data or train on it
- ✕ Sell or rent student data, ever
- ✕ Show ads to students or allow third-party ad tracking

What Snorkl does to protect students

- ✓ Collects only what's needed to provide the service
- ✓ Keeps student work private to the student, their teachers, and school admins
- ✓ Stores data on U.S. servers, encrypted in transit and at rest.
- ✓ Deletes student data whenever your school asks

How Snorkl uses AI: for student feedback, never to train AI

When a student submits work, AI reviews it and returns feedback on their thinking.
The AI retains no knowledge or memory of it.

Never used for training AI

Student data is never used to train or fine-tune AI models or LLMs.

Zero Data Retention

AI providers are barred from storing the data. It is processed, then deleted.

Minimum Necessary

AI only receives the data necessary to provide feedback.

Questions families often ask

Who can see my child's work?

Only your child, their teachers, and school administrators. Student work is never public or shareable by link.

Can student data be deleted?

Yes. Schools can email support@snorkl.app to delete a student's data, or the whole school's, at any time. When an agreement ends, data is deleted within 30 days.
